Do you want the NRAS Offset to be included in the reduction of your tax rate? Yes / No (Must Circle)

If you answer yes, this means more money in your pocket during the year but less of a refund when we come to do your tax return. This situation can change depending on your individual circumstances but generally you end up getting the same amount, just over different time periods.

If you have more than 2 Rental Properties, please print another copy of Page 2 and include.
